

Drive-Thru with Simplicity

Serving the pharmacy and banking retail industries,
Quick Tube Systems designs with simplicity in mind.

Our Product line includes:

Pneumatic tube systems

Drive-thru combo units

Audio/video

Quick Tube Systems custom designs and manufactures pneumatic tube systems with a comprehensive line of drive-thru applications. With our successful line of pneumatic tube systems, window and drawer combo units, audio and video packages, and security transactions drawers, our turnkey solutions are innovating the way banks and pharmacies interact with their customers.

About

Ray Epps, founder and president of **Quick Tube Systems** has over 24 years of experience in the drive-thru industry. In 1986 he began his journey as the national accounts manager of QUIKSERV Corp., a manufacturer of drive-thru windows, in charge of sales and marketing. As a key player in developing many of the current QUIKSERV product lines including security transaction drawers and several of the standard drive-thru windows, Ray negotiated major account contracts with many nationally recognized food chains. With his many years of experience in the manufacturing of drive-thru products, Ray understands the scope and service needs of national chain accounts.

Advantages

We're not just another tube manufacturer. Our long-standing relationships and our unwavering commitment to our clients provide the **Quick Tube Systems Advantage** – a synonymous accolade for quality and simplicity. That is why we consistently earn our clients' repeat business and win over national accounts from some of the larger competitors in the country. Once a client understands the long-term value and simplicity of our products, they see the advantage to doing business with us.

Our Product line includes:

Security transaction drawers

Drive-thru windows

Kiosks & Canopies

Bullet resistant security

Service

We provide complete national service to our clients, as well as our competitor's products. Our 24/7 service is known for immediate response time, detailed reporting, competitive pricing, and a large inventory of parts. We offer various types of service agreements customized to fit your needs. Our technicians are factory trained on all manufactured drive-thru equipment including audio, video, pneumatic tubes, mechanical gear systems, transaction drawers, standard drive-thru windows, and all other drive-thru components.

Expertise

Adding strength by partnering as a distributor with the industry leaders has given **Quick Tube Systems** the leading edge in the market. **Quick Tube Systems** has formed alliances by becoming a distributor for companies such as QUIKSERV, Audio Authority, Air Communications, and many more recognized manufacturers. As a distributor of each of these specialized manufacturers, our product line has become one of the strongest in the industry with complete manufacturing support including warranty, service and installation.

Team

Ray Epps, founder and president of **Quick Tube Systems**, has over 24 years of experience in the drive-thru industry. Bruce Bergman manages our Service and Purchasing departments while staying on top of our large inventory. Jerry Kutach is our lead installation manager who won't stop until the job is done - and done well.
